

Spatial filtering for Smoothing (example)

```
import numpy as np
from google.colab.patches import cv2_imshow
import cv2
import matplotlib.pyplot as plt

img = cv2.imread('hubble_space.jpg',0)

mask = np.ones([7,7], np.float32)/49
blurred = cv2.filter2D(img, -1, mask)
cv2_imshow(blurred)
```

```
import numpy as np
from google.colab.patches import cv2_imshow
import cv2
import matplotlib.pyplot as plt
```

```
[ ] img = cv2.imread('hubble_space.jpg',0)
```

```
[ ] mask = np.ones([7,7], np.float32)/49
    blurred = cv2.filter2D(img, -1, mask)
    cv2_imshow(blurred)
```

```
cv2.imshow('img')
```

```
retval, threshold = cv2.threshold(blurred, 62, 255, cv2.THRESH_BINARY)  
cv2.imshow('img')  
cv2.imshow('threshold')
```
